FEDERAL AVIATION ADMINISTRATION – PARTS MANUFACTURER APPROVAL

Dear Mr. Steinmetz:

In accordance with the provision of Title 14, Code of Federal Regulations (14 CFR), Part 21, Certification Procedures for Products, Articles, and Parts, subpart K, the FAA has found that the design data, based on STC# ST04447AT, the design approval dated May 16, 2019 and your PMA request letter dated May 16, 2019, meet the airworthiness requirements of the regulations applicable to the products on which the articles are to be installed. Additionally, the FAA has determined that Delta Flight Products has established the quality system required by §21.307 at 3980 Tradeport Blvd. Building 1200, Atlanta, Ga. 30354-3730, Accordingly, Parts Manufacturer Approval (PMA) is hereby granted for production of the replacement articles listed in the enclosed Supplement No. 5.

You are reminded that the provision of 14 CFR, Parts 21 and 45, noted in our PMA letter of approval dated June 26, 2018 also apply to the enclosed PMA Listing-Supplement No. 5. The enclosed supplement should be retained with the original PMA letter as evidence of approval to produce the articles concerned.

Sincerely,

For James Robinson,
Acting Manager, Atlanta MIDO Section
System Oversight Division

-----**END OF LISTING**-----

NOTE: The procedures that have been accepted by the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to the original articles used on the type certificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement articles. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA articles must be submitted in a manner as determined by the ACO. Major design changes (reference CFR §21.319 and §21.619) to drawings and specifications are to be handled in the same manner as that for an original PMA.
